SCHOLARS ACADEMY PRESIDENT'S WEEK CAMP

Scholars Academy is offering a week long President's Week Camp for students attending Kindergarten through Grade 6. The main idea of the camp is to provide a relaxed, enriching environment for students during the week long break. This "Endless STEM Challenge Camp" will expose campers to STEM activities (Science, Technology, Engineering and Math) through fun hands-on projects. The schedule for the week includes plenty of time for indoor/outdoor play, dancing to music, silent reading, story time, movie time yoga, socializing and more.

Here is a sneak preview of some of the camp activities. As junior architects, engineers, scientists and mathematicians, campers will create simple structures – design, build and test the strength of bridges using various materials. They will be exposed at individual/team level to many other fun and hands-on STEM challenges. Art and Craft activities are also incorporated with the theme of the camp.

WEEK OF 2/20-2/23/18
